### EXPERIENCE

**Full-Stack Developer and Product Owner**  01/2024 - Ongoing

#### SAP

- Member of SAP Business AI organization
- Contributed to applications and services on SAP's corporate data platforms to help SAP's client get the most of their customer data
- Developed and maintained software solutions on top of SAP BTP
- Took the leading part for the front-end work on the beta version of Customer Data Hub application
- Acted as a Product Owner for the front-end CDH project
- Helped our Scrum Master to improve our Sprint Retrospectives

**Software Developer**  03/2021 - 08/2022

#### Quantive (formerly Gtmhub).

- Member of the data ETL team
- Incorporated new data sources to the platform based on JDBC drivers, expanding the platform's data integration capabilities.
- Transitioned into front-end development and became the go-to front-end developer for the team
- Developed functional and robust web pages and components with TypeScript, AngularJS, Less, and Pug
- Independently developed crucial front-end functionality for one of the company's major clients, showcasing autonomy and proficiency in delivering client-focused solutions

**Java Software Developer**  01/2019 - 01/2021

#### Fadata

- Developed and extended business solutions for the INSIS web application using Oracle ADF Framework
- Contributed to both client projects customizing the core INSIS version to meet the unique needs of different clients, and core INSIS platform development, showcasing versatility and adaptability in diverse tasks.
- Led client training sessions, empowering them to effectively utilize the INSIS platform and its features

**Junior Software Engineer**  01/2017 - 01/2019

#### Telco Systems

- Member of the Cloud and Virtualization team, contributing to the development of an NFV ARM Solution
- Developed CLI using Bash and Python to enhance user interaction and system management

### EDUCATION

**Master of Engineering - MEng, Computer Systems Networking and Telecommunications**  09/2016 - 02/2018

Technical University of Sofia

Hochschule Fulda

**Bachelor of Engineering - BE, Telecommunications**  09/2012 - 09/2016

Technical University of Sofia

### TOOLBOX

#### Programming languages and technologies

JavaScript TypeScript Java Python

Go Node.js jQuery HTML CSS

Sass Less Bootstrap Chakra UI

#### Frameworks

React AngularJS Angular Spring SAP UI5

Jest JUnit SAP CAP Oracle ADF

#### Databases

MySQL PostgreSQL MongoDB Oracle

#### Tools

Jira Git Bitbucket GitHub VS Code

IntelliJ IDEA Jenkins Bash SAP BTP

### SOFT SKILLS

Persistence Perseverance Discipline

Team player Empathy Positivism

Lifelong learner Adaptability Curiosity

Ambitious person Detail-Oriented

Reliability Cultural sensitivity

### LANGUAGES

**Bulgarian** Native

**English** Proficient

**German** Beginner
